Dr. Gordon has served as a veterinary medical officer with VMAT-1 for over 10 years, and then with NVRT-1 for the over 5 years, and also with MA-TF 1 US&R since 2002 caring for search canines during trainings, certifications, and deployments. She serves as a subject matter expert for FEMA in regards to search canine care in the field, and lectures to EMTs, Paramedics, Doctors and Handlers on this subject as well as chemical, biological, and radiological exposure. With her MA-TF Hazmat team members they developed canine decontamination guidelines and designed a K9 Decontamination System for use in the field. She is the founder of an on-line resource group of veterinarians for information on canines as first responders, Urban Search and Rescue Veterinary Group. http://www.usarveterinarygroup.org/

Made possible by the generous support of:
Elizabeth A. Lawrence Endowed Fund

The Center for Animals and Public Policy (CAPP) advances research, policy analysis, education and service pertaining to the important roles animals play in society, and explores the ethical implications of the human-animal relationship.
